

**" MIURA P400 S : CATALOGO PEZZI RICAMBIO (Spare Parts Catalogue) (ITALY, 1969) "**  
**in completely new condition!**

**Authentic Catalogue straight from the Factory brass - pinned binding (not cheap reproduction - even of the correct era- with spiral binding...)**

**This particular catalogue was ordered by my father in 1969 on behalf of one of his distinctive Greek clients of the era, who never took it in his hands and never used It! He simply bought another exotic car, instead of overhauling his Miura, after treated her precious powerplant in a very bad way...Typical Greek spoilt wealthy young gun of the 70's!!!**

**Definitely not trying to make a fortune out of this private sale, please do kindly reward me for my exceptional preservation of this NEW item from 1969.**
